QUARTERLY
REPORT 2015**

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

The Company's Hong Kong subsidiaries are subject to Hong Kong Profits Tax. In addition, whilst the Company and Elitel Limited are incorporated in the Cayman Islands, they are considered as having a presence in Hong Kong for tax purpose since they are primarily managed and controlled in Hong Kong. Accordingly, they are subject to tax on an entity basis on income arising in or derived from Hong Kong. No Hong Kong Profits Tax has been provided as there was no assessable profit for the three months ended 31 March 2015. The provision for Hong Kong Profits Tax for the three months ended 31 March 2014 is calculated at 16.5% of the estimated assessable profits for the period.

8. LOSS PER SHARE

(a) Basic loss per share

The calculation of basic loss per share for the three months ended 31 March 2015 is based on the unaudited loss attributable to ordinary equity shareholders of the Company of approximately HK\$6,341,000 (three months ended 31 March 2014: approximately HK\$3,965,000) and the weighted average number of 1,037,500,000 ordinary shares in issue during the period (three months ended 31 March 2014: 1,037,500,000 ordinary shares).

(b) Diluted loss per share

There were no potential dilutive ordinary shares for the three months ended 31 March 2014, and therefore, diluted loss per share are the same as the basic loss per share.

Diluted loss per share is the same as basic loss per share for the three months ended 31 March 2015 as the potential ordinary shares under the unlisted warrants have anti-dilutive effects on the basic loss per share.

(b) Impairment of trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly.

The movements in the allowance for doubtful debts during the end of the reporting period are as follows:

	As at 31 March 2015 <i>HK\$'000</i> (Unaudited)	As at 31 December 2014 <i>HK\$'000</i> (Audited)

At end of the reporting period	<u>16,938</u>	<u>14,360</u>

10. RECEIVABLES, DEPOSITS AND PREPAYMENTS *(Continued)*

(b) Impairment of trade receivables *(Continued)*

At 31 March 2015, the Group's trade receivables of approximately HK\$16,938,000 (31 December 2014: approximately HK\$14,360,000) were individually determined to be impaired. The individually impaired receivables related to invoices that were default in payment and management assessed that the receivables are not expected to be recovered. Consequently, specific allowances for doubtful debts of approximately HK\$16,938,000 (31 December 2014: approximately HK\$14,360,000) were recognised. The Group does not hold any collateral over these balances.

In particular, the trade receivables (before provision) as at 31 March 2015 included amounts due from a mobile network operator in China ("that MNO") which is a subsidiary of a company listed on the Main Board of the Stock Exchange and the New York Stock Exchange and the outstanding amount was approximately HK\$34,818,000, of which HK\$6,807,000, HK\$5,206,000 and HK\$19,887,000 fell into "More than 3 months but less than 12 months past due", "More than 12 months but less than 18 months past due" and "More than 18 months past due", respectively. The credit terms of 30 days were granted by the Group to that MNO as it is in line with the credit policy of the Group whilst the delay in settlement by that MNO renders the actual credit period longer than the contractual credit period. Taking into account of the above and in accordance with the Group's provisioning for doubtful debts on trade receivables, the Group made a provision for impairment loss on trade receivables of HK\$2,574,000 for the three months ended 31 March 2015 (Year ended 31 December 2014: HK\$14,219,000).

(c) Trade receivables that are not impaired

The ageing analysis of trade receivables that are neither individually nor collectively considered to be impaired are as follows:

	As at 31 March 2015 <i>HK\$'000</i> (Unaudited)	As at 31 December 2014 <i>HK\$'000</i> (Audited)
Neither past due nor impaired	419	618

1 to 3 months past due	406	732
More than 3 months but less than 12 months past due	741	437
	<hr/> 1,333	<hr/> 1,628
	<hr/> 1,752	<hr/> 2,246

10. RECEIVABLES, DEPOSITS AND PREPAYMENTS *(Continued)*

(c) Trade receivables that are not impaired *(Continued)*

Trade receivables that were neither past due nor impaired relate to customers for whom there was no recent history of default. Trade receivables that were past due but not impaired relate to a number of independent customers that have a good repayment track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

11. EVENT AFTER THE REPORTING PERIOD

Proposed Bonus Issue and increase in authorised share capital

On 1 April 2015, the Board proposed a bonus issue of new shares (“Bonus Issue”) on the basis of two bonus shares (“Bonus Share”) for every one share held by qualifying shareholders of the Company. The Company will make further announcement on the timetable for the Bonus Issue including the record date (the “Record Date”) for the determination of entitlements to the Bonus Issue, as and when appropriate. The Board also proposed to increase the authorised share capital of the Company to HK\$100,000,000 divided into 10,000,000,000 ordinary shares of HK\$0.01 each by the creation of an additional 6,000,000,000 ordinary shares of HK\$0.01 each. The Bonus Share and the additional ordinary shares shall rank pari passu with the existing shares in all respects.

On the basis of 1,037,500,000 existing Shares in issue as at 31 March 2015 and assuming no further Shares will be issued or repurchased before the Record Date, it is anticipated that 2,075,000,000 Bonus Shares will be issued under the Bonus Issue. After the completion of the Bonus Issue, there will be a total of 3,112,500,000 Shares in issue as enlarged by the Bonus Issue.

For details, please refer to the Company’s announcement dated 1 April 2015, 21 April 2015, 5 May 2015 and further announcement of the Company which will be issued as and when appropriate.

11. EVENT AFTER THE REPORTING PERIOD *(Continued)*

Termination of contractual relationship with airtime service provider in the PRC

On 4 May 2015, the Group and its airtime service provider in the PRC have mutually agreed to terminate the contractual relationship for providing airtime in the PRC to the Group. As a result, it will stop providing airtime in the PRC to the Group. The parties are in the process of negotiating the terms of the termination agreement. The Group will notify all affected customers of its “One Card Multiple Number” service of the arrangements for service termination or change of service in due course.

After the termination of the contractual relationship with its airtime service provider in the PRC, the Group will continue to provide telecommunication services to our customers through cooperating with its existing mobile network operators in Hong Kong and will continue to find a replacement service provider of airtime in the PRC.

12. COMPARATIVE FIGURES

Certain comparative figures including (a) other revenue and (b) other net loss have been reclassified to conform with current presentation.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a mobile virtual network operator (“MVNO”) which is principally engaged in the provision of mobile phone services. The Group does not have its own telecommunications network infrastructure and its business mainly involves the trading of the airtime sourced from two mobile network operators (“MNOs”) in Hong Kong and one MNO in the People’s Republic of China (the “PRC”), and subsequently sold the airtime through different channels and in various forms to users, dealers or MNOs. The Group’s mobile phone services include “One Card Multiple Number” service and Hong Kong local mobile phone services. The Group also provides services of resale of airtime to MNOs, telesales dealership services and other services.

The performance of the Group was worsen for the three months ended 31 March 2015 compared to the corresponding period in 2014. The monthly average number of activated phone numbers decreased by approximately 4.0% to 108,201 in the three months ended 31 March 2015 when compared to the corresponding period in 2014 and the total number of activated phone numbers decreased by approximately 2.7% to 108,601 as of 31 March 2015 compared to 111,596 as of 31 December 2014.

The Group continues to face difficulties in the highly competitive mobile services industry particularly in the data access services and mobile communications applications. The increased popularity of smart mobile devices also led to a rapid growth of alternative means of communications (e.g. social networking applications) which had reduced the usage for traditional voice and short message services. The competitiveness of the Group’s business has been adversely affected and the average revenue per user (“ARPU”) of the Group showed a decreasing trend and the ARPU of the Group was approximately HK\$13.8 for the three months ended 31 March 2015, lower than approximately HK\$15.8 for the same period last year.

The volume of the Group’s airtime sold increased slightly from approximately 21.5 million minutes for the three months ended 31 March 2014 to approximately 21.7 million minutes for the three months ended 31 March 2015. The revenue derived from the provision of “One Card Multiple Number” service, Hong Kong local mobile phone services and resale of airtime to MNOs decreased from approximately HK\$5.5 million to approximately HK\$4.6 million during the same period. The Group’s revenue per minutes of airtime sold decreased from approximately HK\$0.26 for the three months ended 31 March 2014 to approximately HK\$0.21 for the three months ended 31 March 2015.

FINANCIAL REVIEW

For the three months ended 31 March 2015, the turnover of the Group decreased to approximately HK\$4,592,000 compared to approximately HK\$5,566,000 for the corresponding period last year, represented a decrease of approximately 17.5%. The decrease in turnover was mainly attributable to the decrease in the monthly average number of activated phone numbers.

The Group’s cost of sales increased by approximately 0.9% to approximately HK\$5,326,000 for the three months ended 31 March 2015 compared to approximately HK\$5,279,000 for the corresponding period last year. The cost of sales in respect of the provision of mobile phone services and resale of airtime to MNOs increased by approximately 1.7% compared to the first quarter of 2014. The cost of sales in respect of the provision of telesales dealership services decreased by approximately 100% compared to the first quarter of 2014, which was in line with the decrease in the revenue derived from the provision of telesales dealership services.

The Group recorded a gross loss for the three months ended 31 March 2015 of approximately HK\$734,000 while it recorded a gross profit of approximately HK\$287,000 for the corresponding period last year. The gross loss incurred was mainly attributable to the decrease of airtime usage by users and the increase of average unit cost of Hong Kong airtime resulting from the requirement to satisfy the minimum monthly airtime purchase amount adopted by two MNOs.

The Group's other revenue for the three months ended 31 March 2015 increased by approximately 19.3% to approximately HK\$617,000 when compared to approximately HK\$517,000 for the corresponding period last year. The increase was mainly attributable to the increase of interest income from bank deposits.

The Group's administrative and other operating expenses for the three months ended 31 March 2015 decreased by approximately 5.9% to approximately HK\$3,278,000 compared to approximately HK\$3,483,000 for the corresponding period last year.

During the three months ended 31 March 2015, the Group has made a provision for impairment loss on trade receivables of approximately HK\$2,578,000 in accordance with the Group's policy in provision for doubtful debts. Details are set out in note 10 to the financial statements.

No income tax has been provided for the three months ended 31 March 2015 as the Group had no assessable profits for the period. The Group's income tax expenses for the three months ended 31 March 2014 was approximately HK\$14,000.

The Group recorded a loss attributable to equity shareholders of the Company for the three months ended 31 March 2015 of approximately HK\$6,341,000, representing an increase of approximately 59.9% when compare with the corresponding period in last year. The increase was mainly due to decrease of turnover and recognition of provision for impairment loss on trade receivables during the three months ended 31 March 2015.

BUSINESS OUTLOOK

On 4 May 2015, the Group and its airtime service provider in the PRC have mutually agreed to terminate the contractual relationship for providing airtime in the PRC to the Group. As a result, it will stop providing airtime in the PRC to the Group and the "One Card Multiple Number" service of the Group cannot be sustained. Nevertheless, the Group will continue to find a replacement service provider of airtime in the PRC and will continue to seek opportunities in existing business to expand its customer base and operations by means of broadening the scope of services and enhancing the standard of services provided to target customers so that it can increase its appeal to new customers and expand its customer base.

In response to the changes in the traditional voice and SMS business in the mobile telecommunications market, we need to adjust our way of thinking and deliver innovative services, so that we could transform the challenges in driving force and provide customers with services that better fulfill their practical needs. Going forward in the second quarter of 2015, we intend to launch several new mobile and roaming services to align with the developing trends of mobile internet and promote strategic transformation and reform and innovation.

1. OTA Card

OTA Card is a new generation of “3Gmate” telecommunication service provided by the Group. Through the two core technologies of air-issuing and APP writing, users will not need to buy extra SIM cards. A single CA-SIM card can load with multiple phone numbers, enjoying the favorable local call charging and traffic rate. With the value-added service platform, users can really travel around and connect to the world. Users can receive free traffic, credits, coupons and so on. The authentication and encryption functions of CA-SIM card can provide to the outbound traveling users better value-added services like Mzone network, O2O business in their destinations, ticket booking service and so on.

With the APP application and the CA-SIM authenticated identity, users can have access to the local telecommunication service, saving the tedious account opening procedure and making communication more convenient. The multiple number function of the APP includes account opening, card re-issuing and number switching. And through the APP, users can check their account, pay for the phone bill or charge their account.

2. New Service Named “Directel”

The “Directel” is an innovated integration of mobile Internet and traditional PSTN network, using the APP on the mobile phone end to accomplish the basic telephone function and meet the customized requirements of mobile Internet telecommunication for the users. It can promote different telecommunication service provider to integrate their services (not only includes HK service providers, but also can provide access to overseas telecommunication service providers to achieve non-standard cross border telecommunication service), so as to realize one APP with multiple affiliated phone numbers, saving money for the user and bring new telecom experience.

3. Private Phonebook

Private phonebook is a personal communication management software with CA core technology (including CA-SIM card's hardware certificate and software certificate), mainly helping you to accomplish all functions that are based on security factors, such as the business card/phonebook management, the encrypted local/cloud storage of phonebook, prevention of malwares' access to the phonebook, encryption of the telephone communication and so on.

Apart from the above, the Group will continue to look for potential opportunities to diversify its business scope and we believe that the new business will drive a new phase of growth in 2015.

CONTINGENT LIABILITIES

Elitel Limited, a wholly owned subsidiary of the Company, has previously failed to register as a non-Hong Kong company within the prescribed time limit under Part XI of the Hong Kong Companies Ordinance, that is, within one month of establishment of the place of business in Hong Kong in November 2002. Elitel Limited has subsequently notified the Companies Registry regarding such matter and rectified the late registration in October 2009.

As at the date of this report, there is a possibility that the Companies Registry may still take action against Elitel Limited in relation to the late registration and that Elitel Limited may be subject to a penalty in this respect, though no action has been taken by the Companies Registry against Elitel Limited to date. During the period ended 31 March 2015, no action has been taken against the Group by the Companies Registry in respect of this matter.

The Group did not recognise any provision in respect of the abovementioned issue as the amount of the obligation cannot be measured with sufficient reliability.

DIVIDENDS

The Board does not recommend the payment of any dividend for the three months ended 31 March 2015 (three months ended 31 March 2014: Nil).
