## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

## NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

### 1. BACKGROUND OF THE COMPANY

Directel Holdings Limited (“the Company”) was incorporated in the Cayman Islands on 28 July 2009 as an exempted company with limited liability under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The Company has established a place of business in Hong Kong and was registered in Hong Kong under Part XI of the Companies Ordinance as a non-Hong Kong company on 25 September 2009. On 2 June 2010, the Company listed its shares with a par value of HK\$0.01 each on the GEM of the Stock Exchange (the “Listing”).

The Company and its subsidiaries are principally engaged in provision of telecommunications services.

### 2. BASIS OF PREPARATION

The interim financial report of the Group has been prepared in accordance with the applicable disclosure provisions of Chapter 18 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange, and in compliance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) issued by the International Accounting Standards Board (“IASB”). It was authorised for issue on 3 August 2011.

The interim financial report of the Group has been prepared in accordance with substantially the same accounting policies adopted in the Group’s audited financial statements set out in the annual report for the year ended 31 December 2010, except for the accounting policy changes that are expected to be reflected in the 2011 annual financial statements. Details of these changes in accounting policies are set out in note 4.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The Group’s interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2010 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”).

The interim financial report for the six months ended 30 June 2011 is unaudited, but has been reviewed by the Company’s audit committee.

The financial information relating to the financial year ended 31 December 2010 that is included in the interim financial report as being previously reported information does not constitute the Group’s annual financial statements prepared under IFRS for that financial year but is derived from those financial statements. The Group’s financial information relating to the financial year ended 31 December 2010 which is included in the annual report for the year ended 31 December 2010 is available at the Company’s registered office. The independent auditor has expressed an unqualified opinion on those financial statements in the independent auditor’s report included in the annual report for the year ended 31 December 2010.

### 3. SEGMENT REPORTING

IFRS 8 introduces a “management approach” to segment reporting, i.e. the identification of segments and the preparation of segment information must be based on the internal reports that the entity’s chief operating decision maker reviews regularly in allocating resources to segments and in assessing their performance.

The financial information provided to the chief operating decision maker does not contain profit or loss information of each service line and the chief operating decision maker reviews the operating results of the Group as a whole. Therefore, the operations of the Group constitute one single reportable segment.

### 4. CHANGES IN ACCOUNTING POLICIES

The IASB has issued certain new IFRS, a number of amendments to IFRS and new interpretations that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group’s financial statements:

- Improvements to IFRSs (2010)
- Revised IAS24, Related party disclosures

The adoption of these developments has no material impact on the Group’s financial statements as the amendments are consistent with policies currently adopted by the Group.

### (b) Diluted earnings per share

There were no potential dilutive ordinary shares for each of the three months and the six months ended 30 June 2010 and 30 June 2011, and therefore, diluted earnings per share are the same as the basic earnings per share.

### 13. TRADE AND OTHER RECEIVABLES (Continued)

The ageing analysis of trade receivables by due date that are neither individually nor collectively considered to be impaired are as follows:

	As at 30 June 2011 HK\$'000 (Unaudited)	As at 31 December 2010 HK\$'000 (Audited)
Neither past due nor impaired	4,692	6,070
Less than 1 month past due	3,822	6,679
1 to 3 months past due	7,018	4,572
More than 3 months but less than 12 months past due	13,928	8,653
More than 12 months past due	13,351	10,204
	<u>38,119</u>	<u>30,108</u>
	<u>42,811</u>	<u>36,178</u>

Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. In particular, the trade receivables as at 30 June 2011 included amounts due from a mobile network operator in China amounting to HK\$30,546,000, of which HK\$12,319,000 and HK\$12,615,000 fell into "More than 3 months but less than 12 months past due" and "More than 12 months past due" respectively. The directors consider (i) that mobile network operator is a reputable company in the PRC; (ii) the Group has established long-term business relationship with that mobile network operator; and (iii) that mobile network operator has maintained a good repayment track record with the Group, the directors are willing to extend credit terms to that mobile network operator generally. As a result, the directors consider other than the write off and impairment loss being made during the period, no impairment allowance is considered necessary in respect of trade receivables as at 30 June 2011. The Group does not hold any collateral over these balances.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group is a mobile virtual network operator (“MVNO”) which is principally engaged in the provision of mobile phone services. The Group does not have its own telecommunications network infrastructure and its business mainly involves the trading of the airtime sourced from two mobile network operators (“MNOs”) in Hong Kong and one MNO in the PRC, and subsequently sold the airtime through different channels and in various forms to users, dealers or MNOs. The Group’s mobile phone services include “One Card Multiple Number” service and Hong Kong local mobile phone services. The Group also provides services of resale of airtime to MNOs, telesales dealership services and other services.

The Group’s performance kept improving for the six months ended 30 June 2011 compared to the corresponding period in 2010. The monthly average number of activated phone numbers increased by approximately 33.7% to 216,206 in the first half year of 2011 when compared to the corresponding period in 2010. However, total number of activated phone numbers decreased by approximately 4.2% to 221,368 as of 30 June 2011 compared to 231,166 as of 31 December 2010.

Owing to the fierce competition in the mobile services industry in Hong Kong and the greater popularity of mobile phone usage, the competitiveness of the Group’s business has been adversely affected and the average revenue per user (“ARPU”) of the Group had showed a decreasing trend. The ARPU of the Group was approximately HK\$23.5 for the six months ended 30 June 2011, lower than approximately HK\$27.3 for the same period last year. Such decrease was mainly attributable to the relatively lower ARPU of most newly activated mobile phone numbers which belong to Hong Kong local mobile phone services plans.

The volume of the Group’s airtime sold increased from approximately 78.4 million minutes for the first half year of 2010 to approximately 91.2 million minutes for the first half year of 2011; and the revenue derived from “One Card Multiple Number” service, Hong Kong local mobile phone services and resale of airtime to MNOs increased from approximately HK\$28.2 million to approximately HK\$31.9 million during the same period. The Group’s revenue per minute of airtime sold decreased from approximately HK\$0.36 for the first half year of 2010 to approximately HK\$0.35 for the first half year of 2011. Such decrease was mainly attributable to the relatively lower ARPU of most newly activated mobile phone numbers which belong to Hong Kong local mobile phone services plans.

### FINANCIAL REVIEW

For the six months ended 30 June 2011, the turnover of the Group increased to approximately HK\$33,143,000 compared to approximately HK\$29,942,000 for the corresponding period last year, represented an increase of approximately 10.7%. The increase in turnover was mainly attributed to the increase in the monthly average number of activated phone numbers which overweighed the decrease in the Group’s ARPU.

The Group's cost of sales increased by approximately 16.5% to approximately HK\$14,482,000 for the six months ended 30 June 2011 compared to approximately HK\$12,434,000 for the corresponding period last year, in which the cost of sales in respect of the provision of mobile phone services and resale of airtime to MNOs increased by approximately 27.3% compared to the first half year of 2010. Such increase was mainly due to the increase in airtime usage by users, increased unit charges for IDD services by telecommunications services providers and additional interconnection fees for cross-border networks charged by an affiliate of MNO. The cost of sales in respect of the provision of telesales dealership services decreased by approximately 38.6% compared to the first half year of 2010, which was in line with the decrease in the revenue derived from the provision of telesales dealership services.

The gross profit of the Group for the six months ended 30 June 2011 increased to approximately HK\$18,661,000 compared to approximately HK\$17,508,000 for the corresponding period last year, and the gross profit margin decreased to 56.3% for the six months ended 30 June 2011 from 58.5% for the corresponding period last year. The decrease in gross profit margin was mainly attributable to the decrease of margin from provision of telecommunications services resulting from increased cost while the sales price generally remained stable in the first half year of 2011.

The Group's administrative expenses for the six months ended 30 June 2011 decreased by approximately 7.8% to approximately HK\$8,676,000 compared to approximately HK\$9,408,000 for the corresponding period last year. The decrease was mainly attributable to the listing expenses incurred of approximately HK\$2,780,000 in the first half year of 2010, while no such expenses incurred for the six months ended 30 June 2011.

The Group's finance income for the six months ended 30 June 2011 increased by approximately 372.8% to approximately HK\$714,000 compared to approximately HK\$151,000 for the corresponding period last year. The increase was mainly due to more foreign exchange gain was recorded arising from the movements in the exchange rate between Hong Kong dollars and Renminbi during the period.

The Group's income tax for the six months ended 30 June 2011 decreased by approximately 0.9% to approximately HK\$1,733,000 compared to approximately HK\$1,748,000 for the corresponding period last year. The decrease was mainly attributed to the higher effective tax rate in the first half year of 2010 as the listing fee incurred was not tax deductible.

The Group's profit attributable to equity shareholders of the Company for the six months ended 30 June 2011 increased by approximately 37.9% to approximately HK\$8,966,000 compared to approximately HK\$6,503,000 for the corresponding period last year. The increase was mainly due to the improvement of gross profit and no more one-off listing expenses incurred in the first half year of 2011, while there was approximately HK\$2,780,000 in the corresponding period of 2010.
