2012
Interim Report

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Director(s)”) of Directel Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; and (2) there are no other matters the omission of which would make any statement herein or this report misleading.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

1. BACKGROUND OF THE COMPANY

Directel Holdings Limited (the “Company”) was incorporated in the Cayman Islands on 28 July 2009 as an exempted company with limited liability under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The Company has established a place of business in Hong Kong and was registered in Hong Kong under Part XI of the Companies Ordinance as a non-Hong Kong company on 25 September 2009. On 2 June 2010, the Company listed its shares with a par value of HK\$0.01 each on the GEM of the Stock Exchange (the “Listing”).

The Company and its subsidiaries are principally engaged in provision of telecommunications services.

2. BASIS OF PREPARATION

The interim financial report of the Group has been prepared in accordance with the applicable disclosure provisions of Chapter 18 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange, and in compliance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) issued by the International Accounting Standards Board (“IASB”). It was authorised for issue on 9 August 2012.

The interim financial report of the Group has been prepared in accordance with substantially the same accounting policies adopted in the Group’s audited financial statements set out in the annual report for the year ended 31 December 2011, except for the accounting policy changes that are expected to be reflected in the 2012 annual financial statements. Details of these changes in accounting policies are set out in note 4.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The Group’s interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2011 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”).

The interim financial report for the six months ended 30 June 2012 is unaudited, but has been reviewed by the Company’s audit committee.

The financial information relating to the financial year ended 31 December 2011 that is included in the interim financial report as being previously reported information does not constitute the Group’s annual financial statements prepared under IFRS for that financial year but is derived from those financial statements. The Group’s financial information relating to the financial year ended 31 December 2011 which is included in the annual report for the year ended 31 December 2011 is available at the Company’s registered office. The independent auditor has expressed an unqualified opinion on those financial statements in the independent auditor’s report included in the annual report for the year ended 31 December 2011.

3. SEGMENT REPORTING

IFRS 8 “Operating Segments” introduces a “management approach” to segment reporting, i.e. the identification of segments and the preparation of segment information must be based on the internal reports that the entity’s chief operating decision maker reviews regularly in allocating resources to segments and in assessing their performance.

The financial information provided to the chief operating decision maker does not contain profit or loss information of each service line and the chief operating decision maker reviews the operating results of the Group as a whole. Therefore, the operations of the Group constitute one single reportable segment.

4. CHANGES IN ACCOUNTING POLICIES

The IASB has issued certain new IFRS, a number of amendments to IFRS and new interpretations that are first effective for the current accounting period of the Group and the Company. There have been no significant changes to the accounting policies adopted in the Group’s financial statements as a result of these developments.

The Group has not adopted any new standard or interpretation that is not yet effective for the current accounting period.

10. EARNINGS PER SHARE

(a) Basic earnings per share

The calculation of basic earnings per share for the three months ended 30 June 2012 is based on the unaudited profit attributable to ordinary equity shareholders of the Company of approximately HK\$6,081,000 (three months ended 30 June 2011: approximately HK\$5,469,000) and the weighted average number of 1,037,500,000 ordinary shares in issue during the period (three months ended 30 June 2011: weighted average number of 1,037,500,000 ordinary shares).

The calculation of basic earnings per share for the six months ended 30 June 2012 is based on the unaudited profit attributable to ordinary equity shareholders of the Company of approximately HK\$12,709,000 (six months ended 30 June 2011: approximately HK\$8,966,000) and the weighted average number of 1,037,500,000 ordinary shares in issue during the period (six months ended 30 June 2011: weighted average number of 1,037,500,000 ordinary shares).

(b) Diluted earnings per share

There were no potential dilutive ordinary shares for each of the three months and the six months ended 30 June 2011 and 30 June 2012, and therefore, diluted earnings per share are the same as the basic earnings per share.

11. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2012, the Group acquired items of property, plant and equipment with an aggregate cost of approximately HK\$3,627,000 (six months ended 30 June 2011: approximately HK\$42,000).

Provision of mobile phone services to the Group's pre-paid users are made in payment in advance, whereas post-paid users are made in an open account with credit terms up to 12 days after the date of invoice. Payments of provision of telesales dealership services are made in bullet payments within one to five months after the date of services rendered.

13. TRADE AND OTHER RECEIVABLES *(Continued)*

The ageing analysis of trade receivables by due date that are neither individually nor collectively considered to be impaired are as follows:

	As at 30 June 2012 HK\$'000 (Unaudited)	As at 31 December 2011 HK\$'000 (Audited)
Neither past due nor impaired	6,328	7,416
Less than 1 month past due	6,607	7,018
1 to 3 months past due	9,394	9,750
More than 3 months but less than 12 months past due	12,545	9,136
More than 12 months past due	14,432	8,562
	<u>42,978</u>	<u>34,466</u>
	<u>49,306</u>	<u>41,882</u>

Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

Trade receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. In particular, the trade receivables as at 30 June 2012 included amounts due from a mobile network operator in China amounting to HK\$31,459,000, of which HK\$10,600,000 and HK\$14,213,000 fell into "More than 3 months but less than 12 months past due" and "More than 12 months past due" respectively. The directors consider (i) that mobile network operator is a reputable company in the PRC; (ii) the Group has established long-term business relationship with that mobile network operator; and (iii) that mobile network operator has maintained a good repayment track record with the Group, the directors are willing to extend credit terms to that mobile network operator generally. As a result, the directors consider other than the write off and impairment loss being made during the period, no impairment allowance is considered necessary in respect of trade receivables as at 30 June 2012. The Group does not hold any collateral over these balances.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a mobile virtual network operator (“MVNO”) which is principally engaged in the provision of mobile phone services. The Group does not have its own telecommunications network infrastructure and its business mainly involves the trading of the airtime sourced from two mobile network operators (“MNOs”) in Hong Kong and one MNO in the PRC, and subsequently sold the airtime through different channels and in various forms to users, dealers or MNOs. The Group’s mobile phone services include “One Card Multiple Number” service and Hong Kong local mobile phone services. The Group also provides services of resale of airtime to MNOs, telesales dealership services and other services.

The Group’s performance kept improving for the six months ended 30 June 2012 compared to the corresponding period in 2011. The monthly average number of activated phone numbers increased by approximately 9.0% to 235,648 in the first half year of 2012 when compared to the corresponding period in 2011. However, total number of activated phone numbers decreased by approximately 0.1% to 239,843 as of 30 June 2012 compared to 240,041 as of 31 December 2011.

Owing to the fierce competition in the mobile services industry in Hong Kong and the greater popularity of mobile phone usage, the competitiveness of the Group’s business has been adversely affected and the average revenue per user (“ARPU”) of the Group had showed a decreasing trend. Nevertheless, the ARPU of the Group was approximately HK\$25.3 for the six months ended 30 June 2012, higher than approximately HK\$23.5 for the same period last year. Such increase was mainly attributable to the relatively higher ARPU of most newly activated mobile phone numbers which belong to “One Card Multiple Number” services plans.

The volume of the Group’s airtime sold increased from approximately 91.2 million minutes for the first half year of 2011 to approximately 118.6 million minutes for the first half year of 2012; and the revenue derived from the provision of “One Card Multiple Number” service, Hong Kong local mobile phone services and resale of airtime to MNOs increased from approximately HK\$31.9 million to approximately HK\$36.6 million during the same period. The Group’s revenue per minute of airtime sold decreased from approximately HK\$0.35 for the first half year of 2011 to approximately HK\$0.31 for the first half year of 2012. Such decrease was mainly attributable to the relatively lower ARPU of majority activated mobile phone numbers which belong to Hong Kong local mobile phone services plans.

FINANCIAL REVIEW

For the six months ended 30 June 2012, the turnover of the Group increased to approximately HK\$36,883,000 compared to approximately HK\$33,143,000 for the corresponding period last year, represented an increase of approximately 11.3%. The increase in turnover was mainly attributed to the increase in the monthly average number of activated phone numbers.

The Group's cost of sales increased by approximately 1.2% to approximately HK\$14,653,000 for the six months ended 30 June 2012 compared to approximately HK\$14,482,000 for the corresponding period last year. The cost of sales in respect of the provision of mobile phone services and resale of airtime to MNOs increased by approximately 7.6% compared to the first half year of 2011. Such increase was mainly due to the increase in airtime usage by users and increased unit charges for IDD services by telecommunications services providers. The cost of sales in respect of the provision of telesales dealership services decreased by approximately 67.0% compared to the first half year of 2011, which was in line with the decrease in the revenue derived from the provision of telesales dealership services.

The gross profit of the Group for the six months ended 30 June 2012 increased to approximately HK\$22,230,000 compared to approximately HK\$18,661,000 for the corresponding period last year, and the gross profit margin increased to 60.3% for the six months ended 30 June 2012 from 56.3% for the corresponding period last year. The improvement in gross profit and gross profit margin was mainly attributable to the decrease of average unit cost of Hong Kong airtime resulting from mass purchase and then satisfying the minimum monthly airtime purchase amount adopted by two MNOs.

The Group's administrative expenses for the six months ended 30 June 2012 decreased by approximately 18.9% to approximately HK\$7,038,000 compared to approximately HK\$8,676,000 for the corresponding period last year. The decrease was mainly attributable to the commission and consultancy fee incurred of approximately HK\$1,362,000 in the first half year of 2011, while there was approximately HK\$352,000 incurred for the six months ended 30 June 2012.

For the six months ended 30 June 2011, the Group recorded finance income of approximately HK\$714,000. For the six months ended 30 June 2012, the Group incurred finance cost of approximately HK\$4,000. The finance cost incurred was mainly due to foreign exchange loss recorded arising from the movements in the exchange rate between Hong Kong dollars and Renminbi during the period.

The Group's income tax expenses for the six months ended 30 June 2012 increased by approximately 44.9% to approximately HK\$2,511,000 compared to approximately HK\$1,733,000 for the corresponding period last year. The increase was mainly attributed to the improvement of operation profit.

The Group's profit attributable to equity shareholders of the Company for the six months ended 30 June 2012 increased by approximately 41.7% to approximately HK\$12,709,000 compared to approximately HK\$8,966,000 for the corresponding period last year. The increase was mainly due to the improvement of gross profit and operation profit.
